Election Requirement

This application contains claims directed to the following patentably distinct species of the claimed invention: Numerous X-Y-Z compounds employed in a method of inhibiting anandamide transport.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, a method of inhibiting transport of anandamide comprising the administration of compound X-Y-Z is generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species (**a SINGLE disclosed X-Y-Z COMPOUND to be use in instant composition/method**) which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Art Unit: 1616

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention. The compound elected for method and composition claims 1-9,12-21 can be employed to examine method claims 10,11 or vice versa. If, however, the compound elected for claims 1-9,12-21 is outside of the scope of claims 10,11, claims 10,11 will be withdrawn for examination as non-elected.

A telephone call was made to Attorney J. Alix on 9/25/00 to request an oral election to the above restriction requirement, but did not result in an election being made. Examiner called Attorney Pitrowski's office on 4/18/01 to clarify examiner's election requirement. However, Attorney Pitrowski was on vacation.
